Inspiring future innovators

Imaginations get their rocket fuel at Camp Invention.

Children are presented with fun, hands-on challenges that encourage creative problem solving, teamwork, entrepreneurship, and innovation. Inspired by the **Inductees of the National Inventors Hall of Fame**, this summer's all-new curriculum allows children to:

Create their own personal, ultimate Spy Gadget Alarm Box by taking apart and upcycling everyday machines.

Explore a distant new exoplanet and design inventions to create the next Earth.

Launch water rockets, build Bubble Blasters, and engineer giant castles.

Design duct tape products and pitch them to mock investors.

We are a **national non-profit organization** and all of our Camp Invention program activities are led by **experienced local educators**.
