

Dear Parents,

Fox Chapel Area High School believes in the importance of reading for all students. The following is a list of recommended readings, covering a wide variety of topics and genres, the Fox Chapel Area High School English Department has compiled as a resource for students and families.

However, not every book is appropriate for every child. As you are your child's first teacher, we ask that you preview your child's selection for the content as well as the appropriate level of reading prior to his or her reading. Because the selections must appeal to readers in grades 9 through 12, the maturity of the content covers a wide range and should be best gauged by you.

Additionally, each selection has been given a "Level" designation. These are in ascending order of difficulty based on reading level only. For further suggestions or recommendations from within the list, we advise you to contact your child's 2015-2016 school year English teacher.
